Digital platforms and products create most value

https://palle.substack.com/p/a-deep-dive-of-the-37-most-valuable

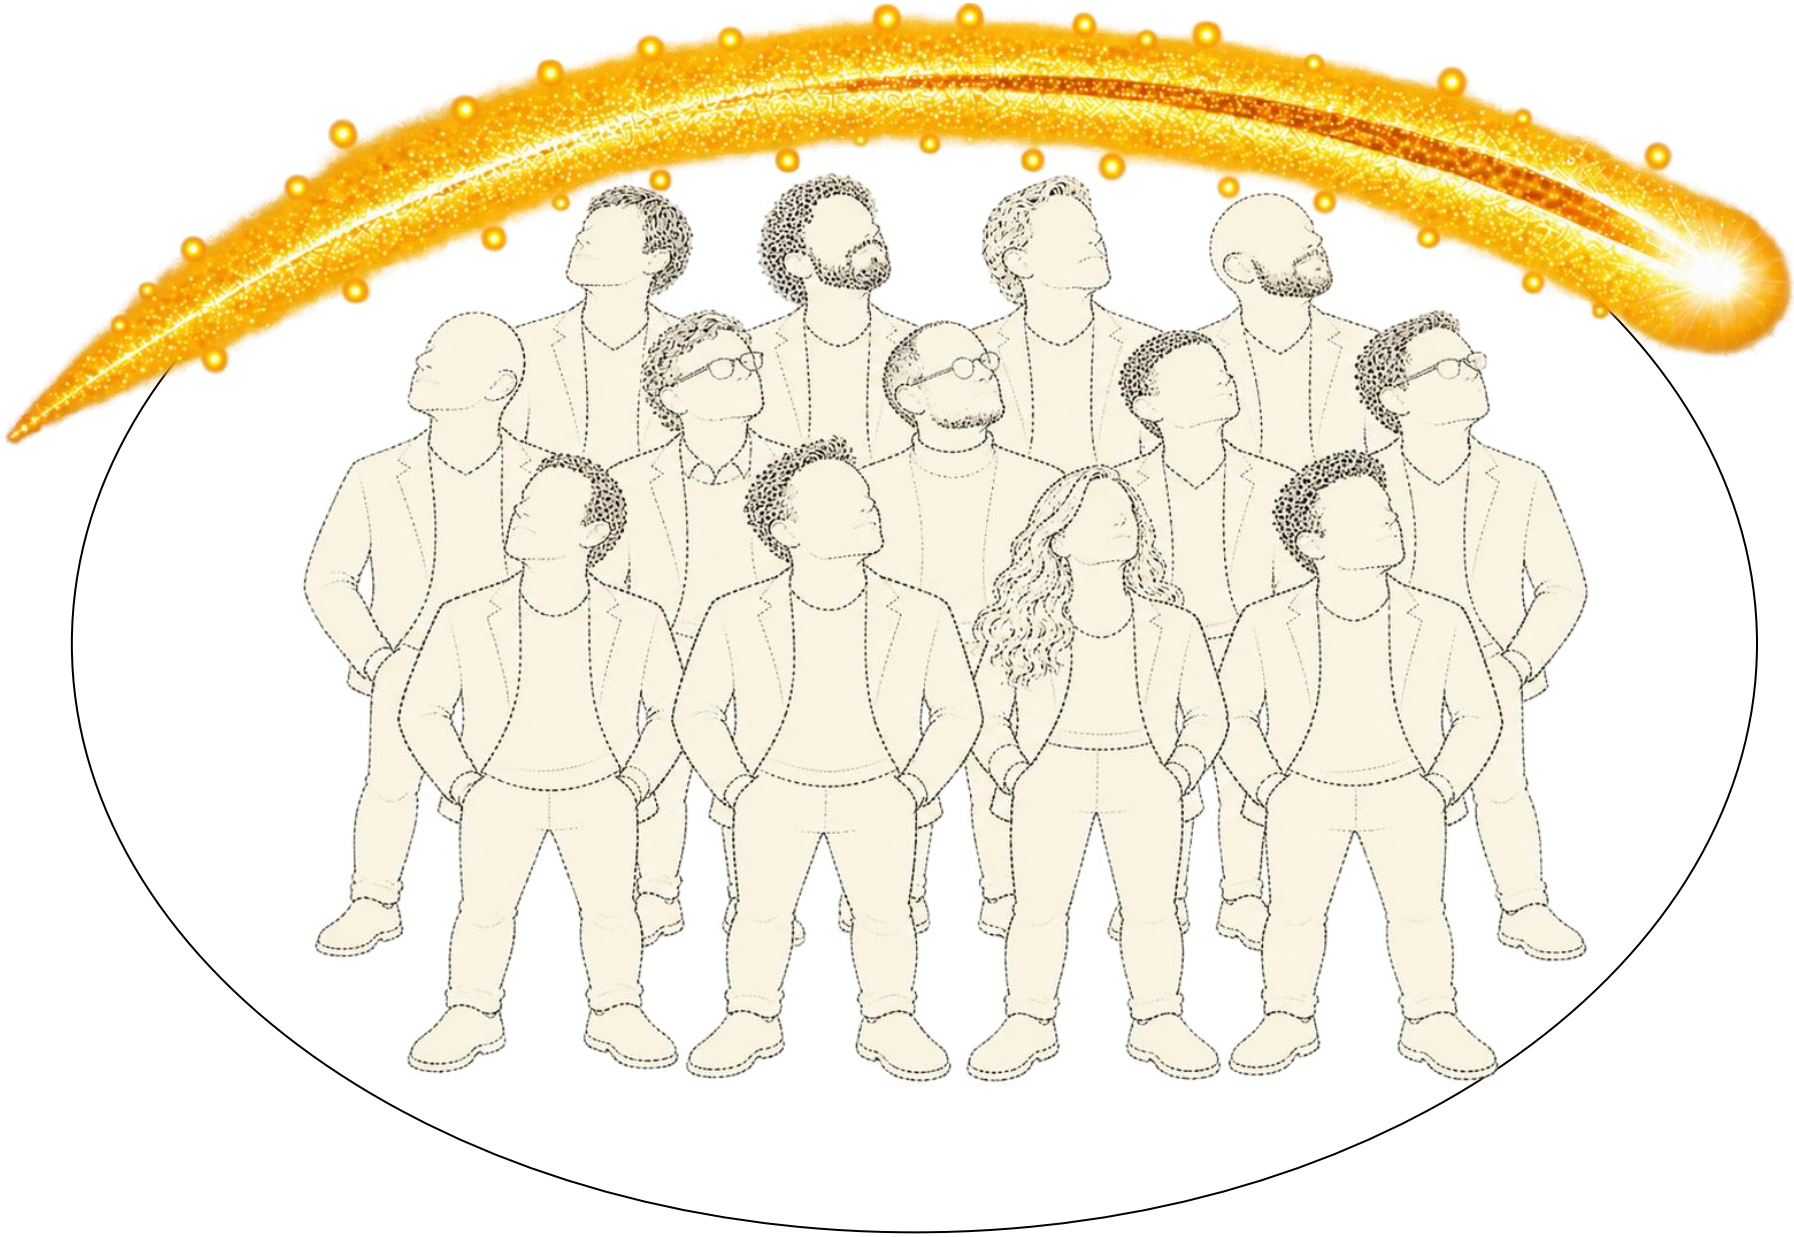

Innovative businesses can be organized (and replicated)

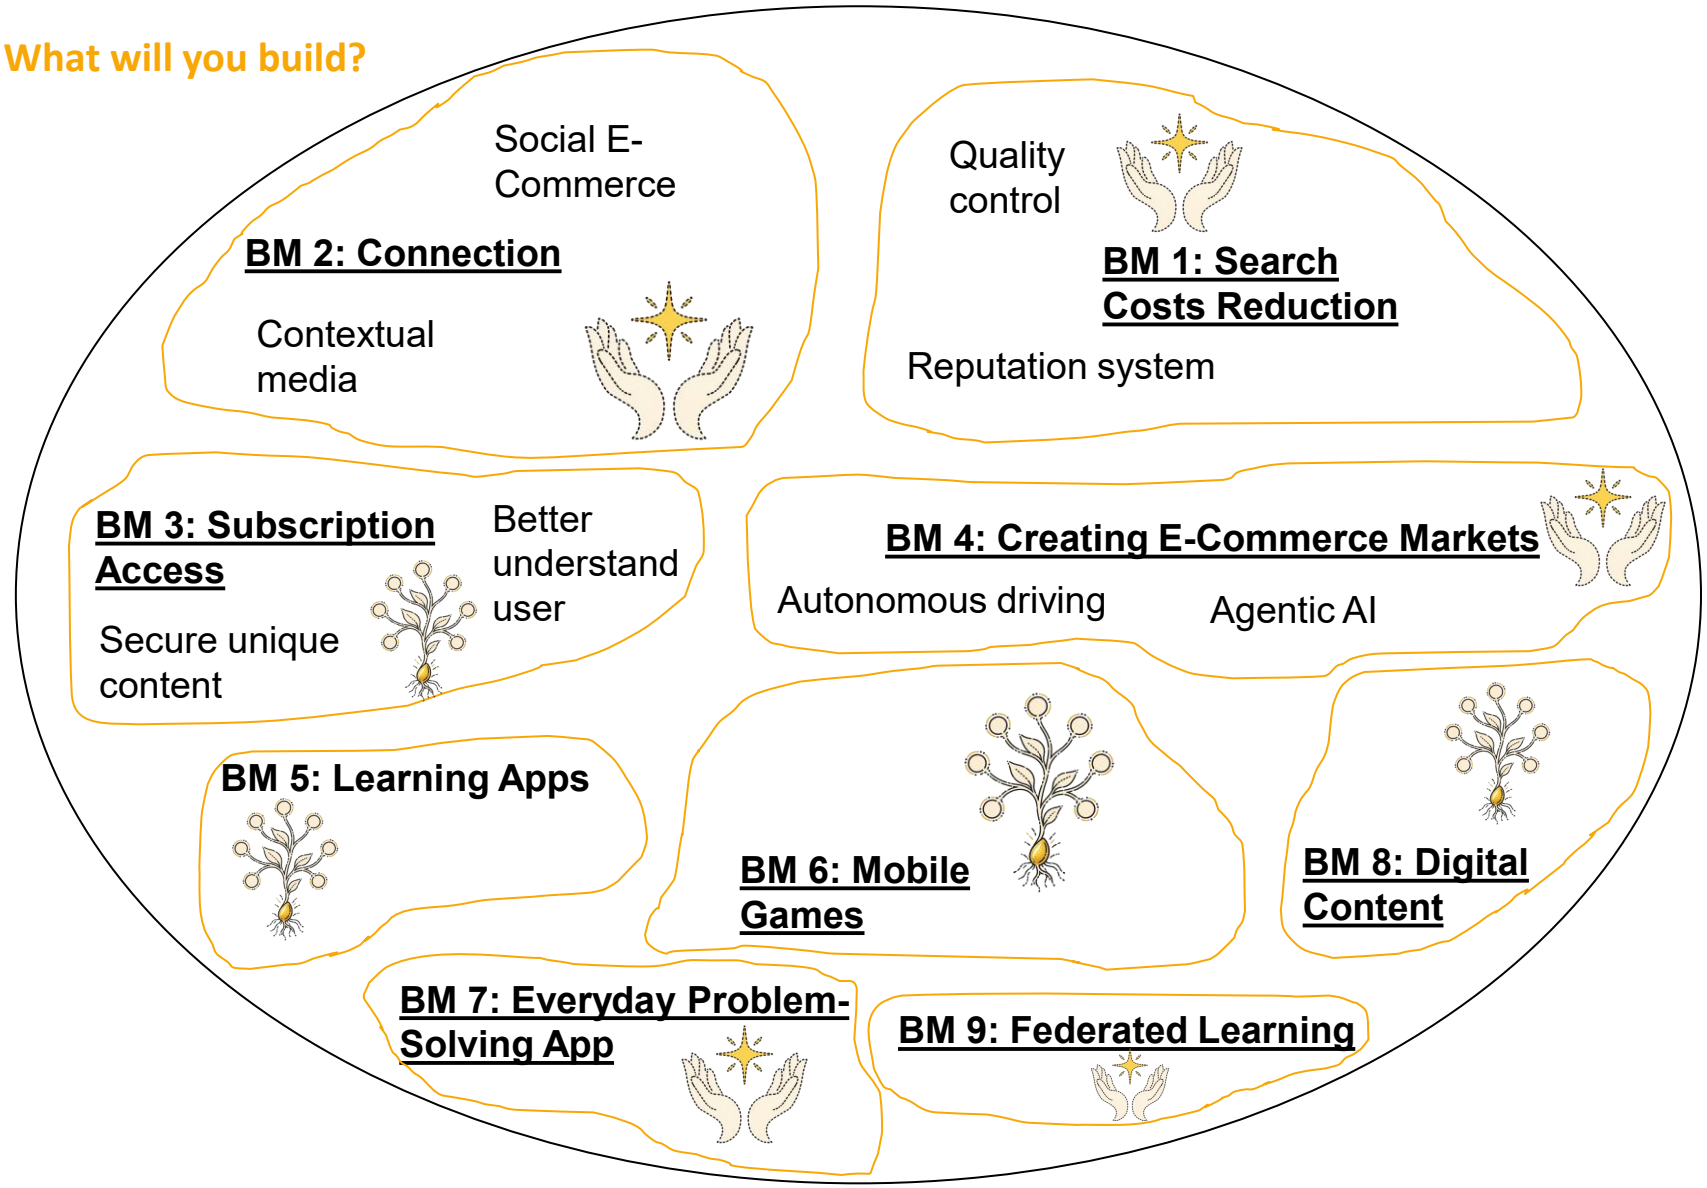

Digital Business Model Innovations rely mostly on apps

Innovations are created by entrepreneurs (and you)

Impact goal: Build the next Digital Business Model

Question to you

- Slides in this format will be part of every deck and shall be the foundation for a discussion

- When studying the slide decks in advance of the lecture, think about answers

© Dr. Tobias Kircher

Question to you

- In which jobs can you leverage the knowledge of this course?

© Dr. Tobias Kircher

Learning goals

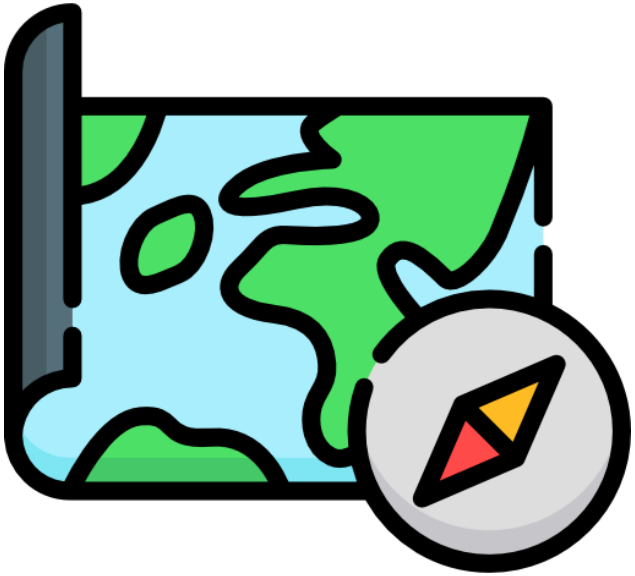

- Learning goals
  - … understand how digital business model innovations create value
  - … able to evaluate digital business models
  - … know how to manage innovative business models and promote revenue growth
  - ... aware of the unit economics, CLV concepts
  - … able to identify entrepreneurial opportunities and systematically design business model innovations
  - … select suitable revenue model
  - … diagnose start-up growth through growth metrics
  - … know capital sources and make venture ready for investment by fulfilling criteria
  - … pitch venture to investors effectively
  - … manage customer-oriented digital transformation by harnessing E-Commerce and customer analytics
  - … recognize ethical challenges and regulatory risk

Nine distinct Business Model Innovations

	Business Model Innovation	Value creation
1	Search Costs Reduction	Customer finds suitable option with less effort
2	Connection, Communication, and Reputation	Allows user to connect to other users, communicate, become visible, express herself and build reputation
3	Subscription Access to Content Variety	Allows consumers to access broad catalogue of content without individual purchases by paying flat-rate fee
4	Creating E-Commerce Markets	Expanding the addressable market for businesses by adding E-Commerce channel
5	Increase enjoyment and access to learning	Learners enjoy learning more and have better access to learning materials
6	Mobile Games	Entertain users and allow users to compete
7	Everyday Problem-Solving App	Solve problems from everyday life, make life more convenient
8	Content Creator	Entertains, informs and inspires viewers
9	Collaborative AI through Federated Learning	Improving predictions through collaboration while keeping raw data decentralized

Guiding framework for understanding and creating

- Value creation patterns
- Examples
- Management principles
- Performance measurement
- Value capture
- Entrepreneurial opportunities

Course structure

i. Economics of Digital Goods and Markets

ii. Digital Business Model Innovations

iii. Digital Start-up Management

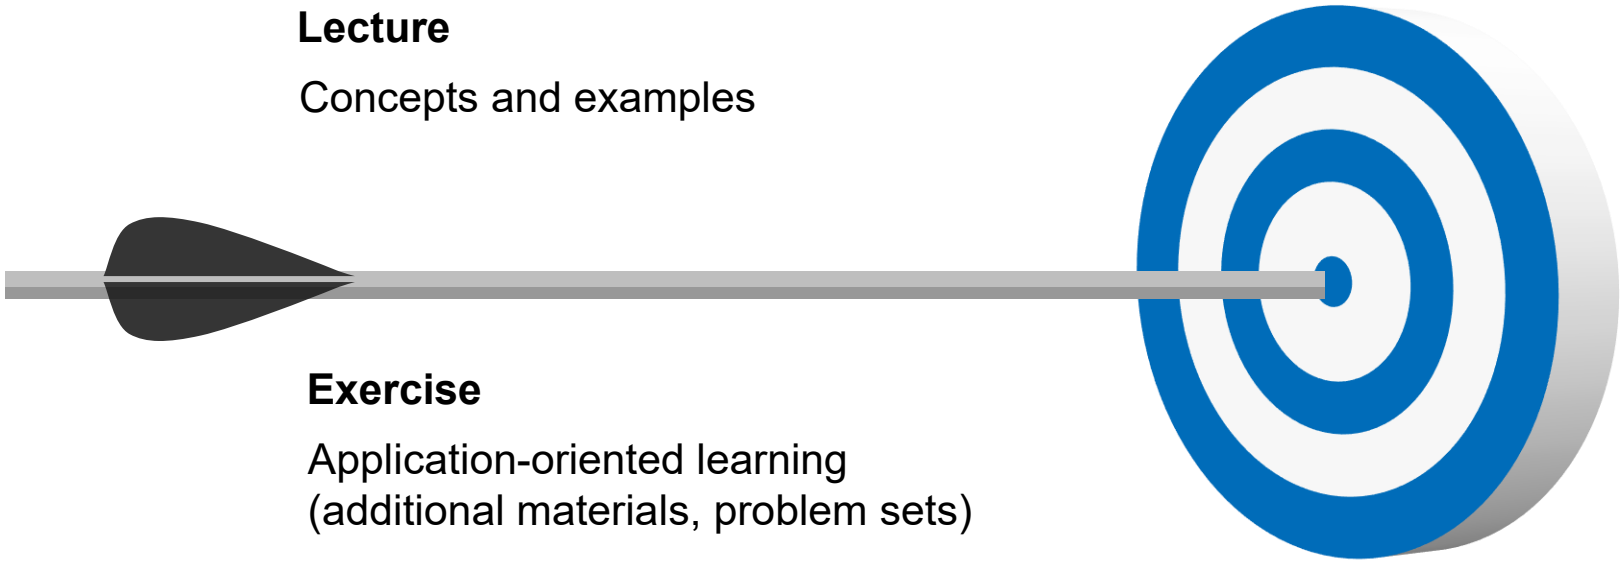

iv. Ethics and Regulatory Risk

v. Customer-oriented Digital Transformation

Course plan

Lecture

Concepts and examples

Exercise

Application-oriented learning
(additional materials, problem sets)

Schedule

CW	Course activity
42	Lecture + Lecture
43	Exercise + Exercise
44	Lecture + Lecture
45	Exercise + Exercise
46	Lecture + Lecture
47	Exercise + Exercise
48	Lecture + Lecture
49	Exercise + Exercise
50	Lecture + Lecture
51	No lecture (make up to be announced)
52	Exercise + Exercise
1	Holidays
2	Lecture + Lecture
3	Exercise + Exercise
4	Lecture + Lecture
5	Exercise + Exercise
8	Exam (February 26 08:30 am)

Grading: Exam

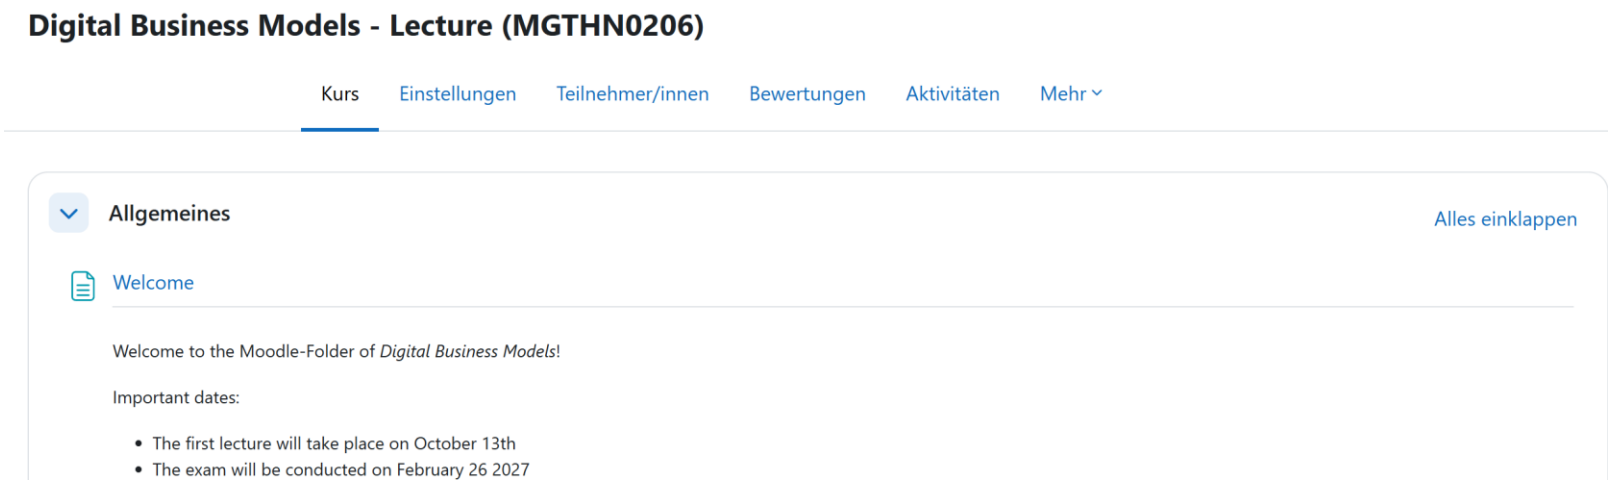

- 100% of the grade is based on a multiple choice exam
- 60 minutes
- Four different types of questions
  - Leverage economics of digital goods and markets
  - Design business model innovations, drive digital transformation and growth
  - Evaluate business model innovations and revenue models
  - Recognition of ethical challenges and regulatory risk
- Questions cover all materials (lecture, exercise)

- Formula sheet provided
- English-your native language dictionary allowed
- Calculator must be non-programmable, must not be graph capable and must not be able to save content or communicate
  - Accepted:
    - Casio FX-991DE x ClassWiz
    - Casio FX-991DE Plus
    - Casio: FX-82..., FX-83..., FX-85..., FX-86..., FX-87, FX-90
    - Texas Instruments: TI-30... (without “Pro”), TI-34, TI-35, TI-36, TI-40

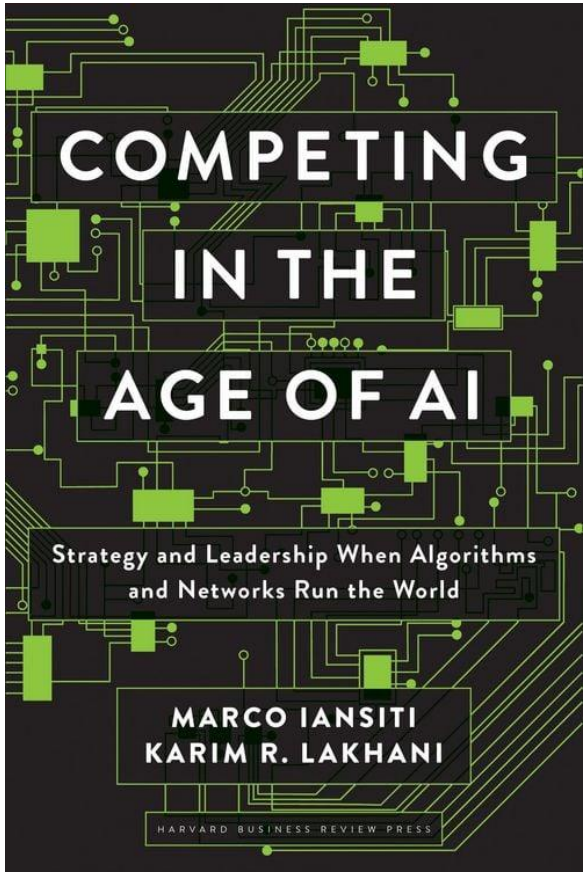

Course materials

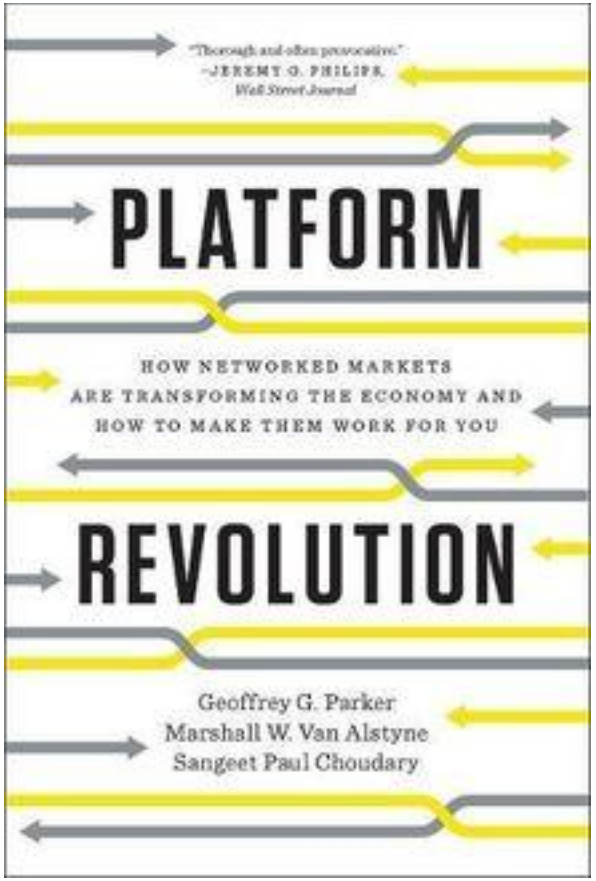

- The course materials are made available on the Moodle

Books

- The books are voluntary, facilitate learning
- Copies of the books are available in the library

Evaluation

- We will reserve time for the course evaluation during class
- Make use of comment box: we would love to hear your feedback
- Pay attention to the scale

MUSTER

EvaSys	Rahmenfragebogen für Vorlesungen, 1 Lehrperson, Papier, E	Electric Paper

Bitte so markieren: ☐ ☒ ☐ ☐ ☐ Bitte verwenden Sie einen Kugelschreiber oder nicht zu starken Filzstift. Dieser Fragebogen wird maschinell erfasst.
Korrektur: ☐ ■ ☐ ☒ ☐ Bitte beachten Sie im Interesse einer optimalen Datenerfassung die links gegebenen Hinweise beim Ausfüllen.

Dear Respondent,
This questionnaire provides you the opportunity to give feedback to the instructor about the lecture you completed. Your responses are voluntary and anonymous. Answers will be evaluated using an automated process and results forwarded to the instructor. This form will be read mechanically. To ensure the quality of data collection, please mark your response as illustrated above. Please write comments within the space provided. Marks falling outside this space cannot be taken into account. Please use block letters for your written comments.

We appreciate your support

Good **Bad**

1. Design & Structure

1.1	The subject matter of individual sessions was logically sequenced.	*agree completely*	☐	☐	☐	☐	☐	*disagree completely*
1.2	Objectives of the lecture were clearly stated from the start.	*agree completely*	☐	☐	☐	☐	☐	*disagree completely*
